RESTRICTED USE AREAS

In order to protect the quality of the environment, it has been found necessary to restrict various types of use. The restricted uses are shown on the map in purple and are listed below.

HORSE AND PACK STOCK RESTRICTION

Horses and pack stock are prohibited within 200 feet of the high water mark around lakes, lake inlets, and within 200 feet of trail shelters except as necessary for loading, unloading, watering, and traveling established trails not otherwise closed.

- No camping within 100 ft of lake
- No camping within ¼ mile of lookout
- Camping or fires within ¼ mile of lake are permitted only at designated locations.
- Locked Gate

AREAS WITH USE RESTRICTIONS

Possessing or using a vehicle off forest development roads is prohibited in the following areas.

Area Name	District
Heather Meadows Area	Glacier
Lake 22 Research Natural Area	Monte Cristo
Long Creek Research Natural Area	Monte Cristo
Mt. Pilchuck Ski Area	Monte Cristo
North Fork Nooksack Research Natural Area	Glacier
Twin Lakes Area	Glacier

The following acts are prohibited in the **Spada Reservoir Area** on the Skykomish Ranger District:

1. Possessing or operating a motorboat.
2. Launching a boat except at a designated ramp.
3. Entering or being in a body of water.
4. Camping.
5. Being on Spada Reservoir without first obtaining a permit. Self registration permits for row boat use are available at the area.

METRIC CONVERSION

The Forest is in the process of converting to the metric system. The older signs show distances, in miles, without any unit of measurement shown. The new signs are in kilometers and the unit of measurement, km, is labeled on the sign.

1 km = 0.6 Mile

1 Mile = 1.6 km

PLEASE BE CAREFUL WITH FIRE

If our forests are to continue producing water, forage, wildlife and other resources, they must be protected from fire. Most fires on this Forest are caused by human carelessness. You can help prevent them by following these few simple but important rules.

1. When you camp in the forest outside of designated campgrounds, each car or pack train must carry a water container with one gallon or more capacity, a shovel with at least a 36 inch handle and 8 inch blade, and an ax with at least a 2 pound head and 26 inch handle.
2. Do not smoke while traveling except in a vehicle on a road. Use your ashtray.
3. Crush out all cigarettes, cigars and pipe heels on a rock or on mineral soil. Break matches before throwing them away.
4. Before building a campfire, select a spot in an opening. Clean an area at least 10 feet in diameter down to mineral soil, and build the fire in the center. Keep it small. Be extra careful when strong winds occur. Use an existing campfire circle where possible. Numerous campfires kill vegetation and make the site unattractive.
5. Never leave your campfire unattended even for a few minutes; put it out completely with dirt and water.
6. If possible, extinguish any uncontrolled fire you find, then report it to the nearest forest officer. If you cannot put the fire out, go to the nearest telephone. The telephone operator will forward your message to the nearest forest station.
7. Read and observe directions on all fire posters.

BACKCOUNTRY TRAVEL HINTS

1. Be prepared for weather changes, (in summer).
2. Be aware of avalanche hazard in winter and heed warnings.
3. Be informed. Get needed information at the local Forest Service office.
4. Be careful! Register before starting or inform friend or relative of your trip plan and return time.

TEN ESSENTIALS FOR HIKERS

1. Extra clothing including rain gear
2. Extra food
3. Sunglasses
4. Knife, Pocket-size
5. Matches, in waterproof container
6. Firestarter, (dry wood, candle, other)
7. First aid kit
8. Flashlight with fresh batteries
9. Map
10. Compass
